

# Roadmap

For Trinidad and Tobago / Caribbean

“Your vision is only limited to your perspective”

# UFCMC ROAD MAP

Greetings, UFCMC Community,

## INTRODUCTION Description

Embark on an exciting journey with us as we unveil the roadmap that charts our course for upcoming developments and plans. Our recent expansion across diverse initiatives, spanning research, development, security, and marketing, signifies a strategic move aimed at propelling TEMCO Group and its subsidiaries and projects to unprecedented heights.

Within this roadmap lies a blueprint that articulates our objectives for the next development sprint, underscoring our unwavering commitment to innovation and excellence. Whether you're a UFCMC enthusiast, a prospective community member, or an esteemed UFCMC Member, we invite you to join us on this transformative journey. Together, we'll push the boundaries of progressive measures and development, ushering in a new era of personal growth for all UFC Members and setting the stage for cutting-edge business innovation.

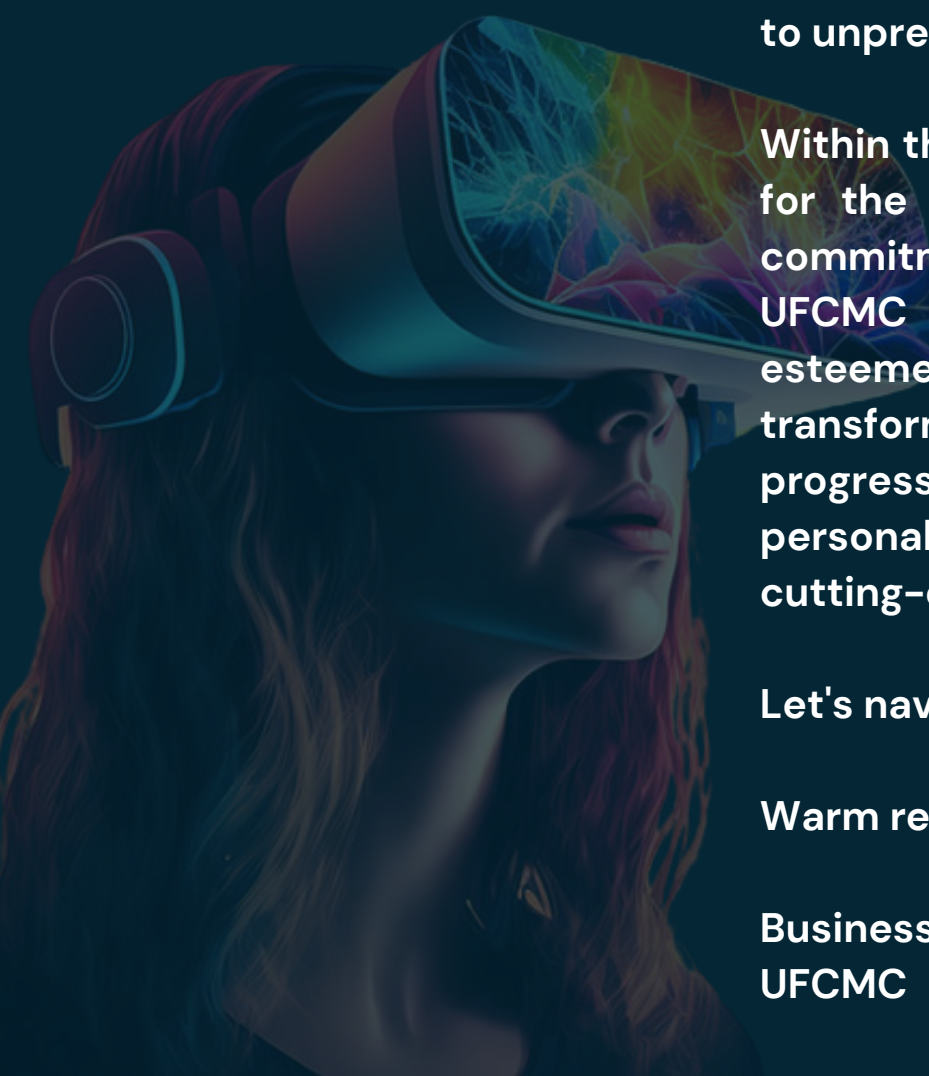

Let's navigate this path to success together.

Warm regards,

Business Development Director  
UFCMC

### Policy Changes

TEMCO management has implemented a strategic policy to enhance the functionality of a Crypto AI platform for its Members. Consequently, in response to the dynamic fluctuations in the crypto market prompted by recent financial rulings in the USA, we find it necessary to prudently withdraw staked values, safeguarding our interests amidst these unforeseen market developments.

Navigating the market's ebbs and flows, we are proactively fine-tuning our strategies to effectively manage the dynamic nature of the Crypto environment. In response to the inherent volatility, we've carefully crafted and refined our policy trading measures. These adjustments, tailored to enhance stability and maximize returns, will be seamlessly integrated and communicated to our valued members shortly.

### UFCMC BOT License

UFCMC has strategically invested in developing its proprietary Crypto AI BOT Trading Platform. As we conclude our rigorous testing phases, our UFCMC AI BOT License utilizes real-time updates from banking reports, cryptocurrency data, and reputable providers in incremental instalments. This approach grants us a distinct advantage in the financial market, enabling us to access price information with seconds of advantage, execute operations for fractional profits, and maintain systems of the highest quality.

In the highly competitive landscape of decentralized markets, possessing our own AI BOT License serves as a key differentiator, providing UFCMC with a significant edge. We are excited to announce that testing is well underway in preparation for the imminent launch.

A new stacking module would be Designed based on the test for Members' staking opportunities.

### UFCMC AI BOT launch

We are thrilled to announce the upcoming launch of our cutting-edge AI crypto trading bot. Developed in-house, this innovative platform leverages advanced technologies and real-time data from banking reports, cryptocurrency sources, and reliable providers. Through meticulous testing phases, we've ensured the system's capability to access pricing information with a unique advantage in the financial market, executing operations for fractional profits and maintaining top-tier system quality.

Our proprietary AI BOT License positions us strategically in the competitive decentralized markets, granting us a distinct edge. The culmination of extensive testing marks the imminent launch, and we are excited to unveil this groundbreaking solution that promises to revolutionize our approach to crypto trading. The future looks promising as we introduce a new era of efficiency and profitability with our AI crypto trading bot.

### BRAND ROLL-OUT Merchandise Shop launch

Exciting Announcement: UFCMC Merch Launch & Contest as part of our development roadmap. We're thrilled to announce that UFCMC's much-awaited merchandise is launching on January 29th! Get ready to explore our exclusive range of products that showcase your love for UFCMC in style.

## WEBSITE DEVELOPMENT

### Investor's Website Portal Development

For Members, our website would serve as a transparent and informative hub. It would offer a user-friendly interface that provides comprehensive insights into the company's performance, financial data, and strategic initiatives. The investor portal is designed to facilitate easy access to relevant documents, reports, and presentations, fostering a deeper understanding of the business.

Throughout the development process, we would be focused on optimizing performance, security, and scalability to accommodate future growth. The website would be built with the latest technologies to ensure a responsive and reliable platform and would implement robust data protection measures to safeguard sensitive information and maintain compliance with industry standards.

In summary, our website is a result of meticulous planning and execution, aiming to provide an intuitive and valuable experience for both managerial and investor stakeholders. The design emphasizes simplicity, transparency, and functionality, with a commitment to ongoing performance optimization and security.

## JUNE 20

Con.....

### launch of in-house IO

As the Business Development Manager of Farmit Technological Solution, I'm delighted to share groundbreaking news regarding our company's trajectory. We are set to embark on a transformative journey by launching our internal Initial Offering (IIP) exclusively to members within the Temco Group of companies, as well as opening up this exciting opportunity to the public.

Farmit Technological Solution is not just a company; it's a commitment to promoting a healthier lifestyle and fostering sustainability. Our mission is to encourage individuals to make conscious food choices that are not only beneficial for their bodies but also for their families, communities, and the planet. At the heart of this endeavor is our local hydroponic farms, where we sustainably cultivate premium leafy greens.

These greens are not only bursting with flavor and nutrients but are also free from GMOs, harmful additives, and contaminants. This ensures that our customers can indulge in clean, wholesome greens throughout the year.

The success of our local hydroponic farms has inspired us to envision a broader impact across the Caribbean. As part of our expansion plan, we aim to replicate our successful business model, bringing clean and sustainable food options to communities throughout the region.

In tandem with this exciting development, our commitment to innovation extends to the development of our poetry decision. This strategic move aligns with our vision for a comprehensive and sustainable approach to business growth, underscoring our dedication to making a positive impact on both human health and environmental well-being.

The launch of our internal IPO is a significant milestone for Farmit Technological Solution, marking not only a new chapter in our journey but also an invitation for investors to join us in making a meaningful impact on the future of clean and sustainable food production. We look forward to the enthusiastic response from our esteemed members and the public as we continue to pioneer positive change in the realm of agriculture and food technology.
